

Musical Instrument E-Commerce Management System

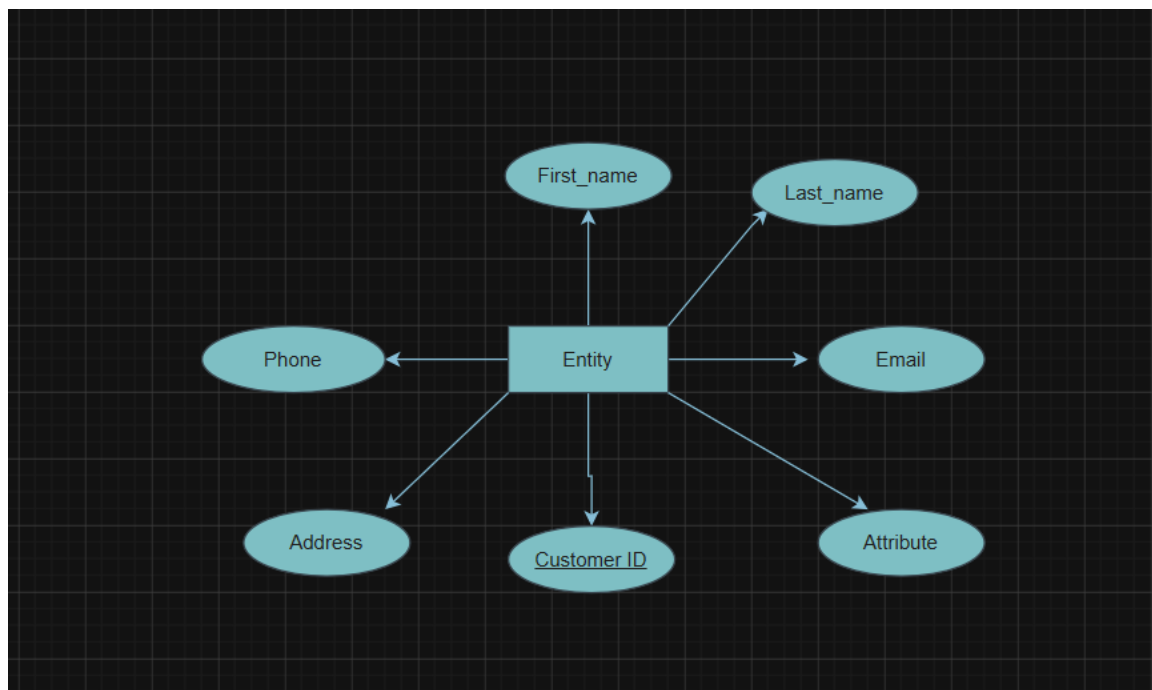

CHAPTER -3

Introduction (ER Diagram)

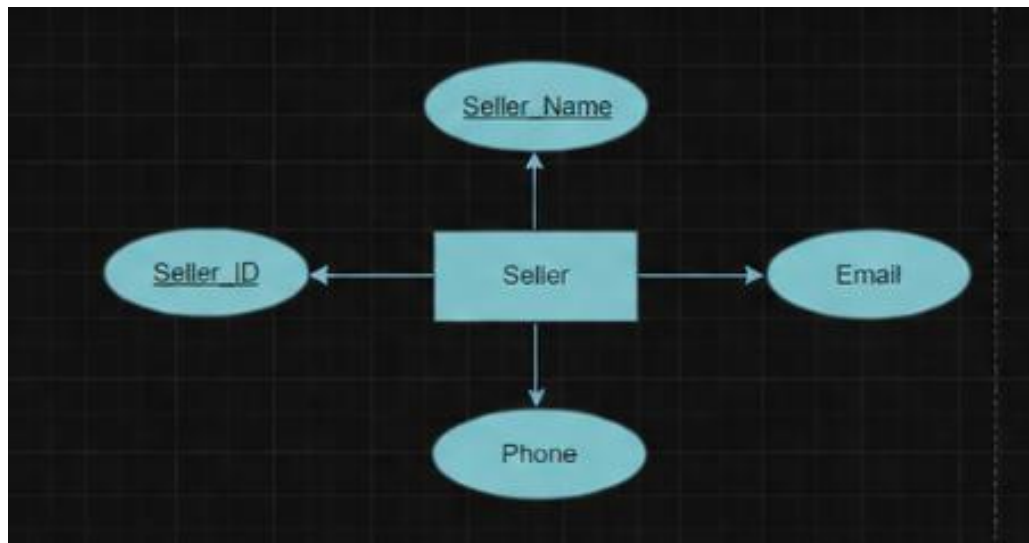

The Entity-Relationship (ER) Diagram is a visual representation of the database structure for the Musical Instrument E-Commerce Management System. It illustrates the main entities such as Customer, Seller, Product, Order, Payment, Inventory, Review, and Shipment, along with their attributes and relationships. The ER diagram helps in understanding how data is organized, how entities are connected, and provides a clear blueprint for designing an efficient, accurate, and well-structured database.

Entity Relationship diagram
